 Muhammet Yıldız

ABOUT ME

I loved programming and over time we understood each other better. My field of Interest's are building new **Web Technologies and Products** . A learning-hungry Full Stack Developer 🚀 I have an experience of building **Web** applications with **JavaScript, Reactjs, Django , Express.js** and some other cool libraries

PROJECTS

Hepsiorada

  An open-source ecommerce website built on the Django Web Framework.

<https://github.com/Muhammet-Yildiz/HepsiOrada>

Mern-Blog

  Fullstack open source blogging application made with MongoDB, Express, React & Nodejs (MERN)

<https://github.com/Muhammet-Yildiz/Mern-Blog>

MoviesApp

  MoviesAPP is movie gallery created using React Hooks, Context API and React Router. The Routes were setup for three default pages and a search page. Also the movies were displayed using the Tmdb API and Axios to fetch data.

<https://github.com/Muhammet-Yildiz/MoviesAPP>

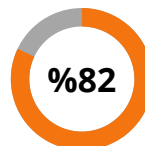

SKILLS

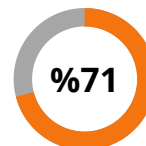

**Html - Css
Bootstrap**

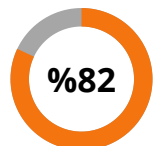

Javascript

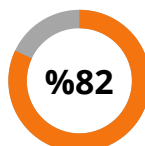

React

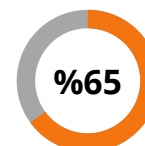

Django

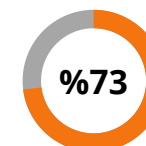

Jquery

MongoDB

**Node.js
Express.js**

**Framer
Motion**
